Dimming

Adjustable CCT

Two Lines Vertical

Picture above is the **Rectangular 2-Bar LED Illuminated Mirror** with touch sensor switch.

Our LED mirror is made with commercial grade glass and comes with 2-Bar Left/Right illumination offset 2 inches from the edge. With our simple one-touch dimming system you can set your preferred light level. The adjustable CCT allows you the flexibility of switching the color temperature between cool and bright task lighting and a warm, sunny ambient glow. Our mirrors are perfect for hotels, spas, salons, and make-up studios. They also make a beautiful upgrade for a vanity in a bedroom or bathroom remodel.

## Features

- Integrated one-touch dimming control
- Touch sensor on/off switch
- Anti-fog technology inhibits condensation build up
- Fingerprint free, safety filmed to protect against shattering
- IP44 Rating: Suitable for damp locations
- 24" x 32" with Left/Right Bar illumination
- Rectangle mirrors can be mounted both vertically or horizontally
- 5mm lead-free, copper-free, corrosion-resistant glass
- UV Free light technology
- Environmentally sustainable and energy efficient LED technology
- Fast lead times and easy installation
- 5-year limited warranty

# REFLECTIVE LIGHTING

## 2-BAR LED ILLUMINATED MIRRORS

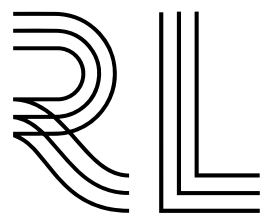

All homes have showers, and all mirrors fog up... leaving a residue. Reflective Lighting mirrors use technology that virtually eliminates the time spent waiting on the mirror to defog after the shower. Let these mirrors eliminate problems for you while creating a space that is warm and inviting for your personal care routine.
